Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A bank credit analyst responsible for reviewing credit card applications.	Approve eligible applicants quickly and accurately.	Manual verification of thousands of applications is slow and error-prone	Each application requires checking income, employment, education, and credit history, making the process time-consuming..	Overloaded, concerned about delays, and worried about approving high-risk applicants.
