

Project Demo Planning

Date	03 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction Using Machine Learning
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objectives, and problem statement	2	Bala Siva Kesava Abhinav Nali
2	System Architecture	Explain the ML workflow, architecture, and technologies used	2	Ajay Vardhan Killi
3	Dataset & Model	Explain dataset preprocessing, feature engineering, and trained ML model	3	Ajay Vardhan Killi
4	Live Demonstration	Show user input, prediction process, and approval result	4	Pradeep Kumar Kirlampalli
5	Performance Evaluation	Present accuracy, precision, recall, confusion matrix, and model comparison	2	Pradeep Kumar Kirlampalli
6	Conclusion	Future scope, challenges faced, and project summary	2	Bala Siva Kesava Abhinav Nali

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain why manual credit card approval is inefficient and time-consuming.
2	Solution Overview	Briefly describe the machine learning approach, architecture, and technologies used.
3	Live Feature Demonstration	Demonstrate entering applicant details and obtaining the approval prediction in real time.

4	Q&A Session	Answer questions about the dataset, model selection, evaluation metrics, and future improvements.
